

# ACCESS TO R121M VIA OAK TREE ROAD

We see that the Cumbria County Council proposal for access onto R121M (mod) continues to be via Oak Tree Road/Rowan Tree Crescent, despite their representative at the Hearing with the Government Planning Inspector in November stating that his preferred option would be to gain access from the A684.

We object very strongly to Oak Tree/Rowan Tree being used for this purpose, while continuing to be totally opposed to the possible development of this site on grounds of landscape, biodiversity and flooding/drainage.
