REVS & BENS

Dear Sir. as a resident of Kents Bank
I wish to make the following remarks
regarding such a large building project
proposed for this area 220 dwellings
plus industrial units.

Originally we were led to believe
this was due to lack of affordable
housing in the country as a whole
Surely this is throwing a blanket over
the whole land, the same scheme
whether the particular area concerned
is in such desperate need for said housing

I would say let's take a step
at a time, see what the response is on
one site e.g. Berners, near centre of Grange
before opening up such a large tract
of land at Kents Bank.

Thank you for reading my letter.
