## **SLDC Land Allocation Development Plan**

Dear Sir,

I can see many pitfalls in the above named plan. Which it seems have been overlooked by the authors of same.

Hospitals and schools are at the moment are working to full capacity. As far as I am aware there are no plans for a secondary school for Grange Over Sands. Work has started, after seven years in the planning, on the new health centre. Will it be able to cope with the forecast increase in the number of people needing to be treated there and maintain the present high standard of care that we now have become accustomed to?

I can see a need for some affordable housing. In my opinion they should be built in areas from which children are able to walk to school. Thus helping families on lower incomes to enjoy a good standard of living, by not having to foot the bill for traveling to and from school. Two, three and four bedroom houses will also have an impact with possibly more children needing school placements.

Parents who cannot get employment locally will probably travel to work by car. People who would wish to travel by bus or train will find that at times of travel both busses and trains are packed to capacity. This will mean a massive increase in cars on the road.

The traffic survey carried out on the 29th. of January 2013, was a farce. A better timeto have done this would have been during the two weeks over the Easter break, Kents Bank Road was difficult to cross for everybody, car parking was difficult both on the road and in the car park.

There is only one zebra crossing in Grange near the bottom of Main Street and as Tim Farron knows, the footpaths on Main Street are very narrow so much so that if a Pedestrian meets someone with a pram one of them must step into the road so that they may pass.

Has the number people and vehicles that occupy the large numbers of caravan and Log cabins in our area all adding to many people who flock here all year been taken into account?

**THINK MORE CARS MORE DANGER ON THE ROADS, MORE POLUTION**

Yours faithfully, Mrs. Aileen Morgan
