Dear Sir,

Reference SLDC's planning proposals for
Grange.

I am puzzled as to who are these
houses for? Are they for immigrants, of which
we are beginning to see quite a few, or are
they for scumbrians. Come to think of it,
I am an "off comer" myself, having been
brought up in Yorkshire. The point is, we
already have enough people to do the work
that is available.

Are new jobs to be created in the
area? or will all these job seekers
commute to Manchester where work will
be created.

Surely people live where there is a
demand for workers eg my father and
grandfather in the mills in Yorkshire
Not just because it is a nice place and
then expect work to be brought to them.

Yours sincerely,
