Subject: Submission re amended SLDC LADPD on 26th.March 2013, Grange and district.

Dear Sirs,

These plans fail to recognise the following:

They would erase important green field gaps currently separating the distinct communities and housing styles in Grange, Kents Bank and Allithwaite. If densely built-up housing as proposed were allowed, tourism (an important factor) would undoubtedly suffer, who would wish to come to the continuously built up and adversely changed urban area?

These proposals amazingly disregard SLDC's own definition of a Key Service Centre and the housing requirement is well in excess of likely public demand, for Grange and district does not have a hospital, good road and local transport links and a secondary school to attract the younger property-buying public.

Please acknowledge receipt of this submission.

Yours faithfully,
Douglas & Judy Worrall
