To Development Plans Manager

22.4.13

Dear Sir

As residents of Holme Lane, Allithwaite, we have been very concerned by the present development plan for Grange and the surrounding district. We feel that insufficient notice has been taken of the views of the residents and that many changes have been made to the original plans which we deem to be unacceptable.

We have studied the leaflet distributed by GADAG and also the response of the Lower Allithwaite Parish Council to the SLDC Land Allocation DPD and are in total agreement with their concerns. While acknowledging that there is a need for affordable homes for local people, we feel that more sensitive consideration should be given to the views of residents, environmental issues, the problems of increased traffic and pressure on our local amenities.

With local elections pending, perhaps these concerns should be given much more thought and consideration.

Yours sincerely
