<b>I, oppose the suggested allocation or designation?</b> (delete as appropriate)			
<b>the suggested site allocation/designation for the following use(s)</b> Housing/employment/retail/community uses/open space/ other (specify)...Duck Pond./ spital fields.....			
<b>Please explain your reasons</b> (continue on a separate sheet/expand box if necessary)			
<p>I cannot for the life of me understand what is going on with this money saving recession. I believe there are about 380 odd houses or total properties empty in this town, I believe that about 150 are going to built on the old auction mart area's , There are shops empty left right and centre, as they could not survive, being shafted by the rent and rate's etc. Also the traffic on Appleby road is appalling as cars are parked all the way up the sides of the road in narrow places and car's are having to drive up the middle of the road ,heading for one another. Road surface is a disgrace, like driving up a beck bottom, and a zebra crossing nobody can see and nobody stops, somebody will be knocked down soon, if nothing changes. The land what has been earmarked floods regular and is not suitable for building, and it would ruin the bit of green belt what is left to look at, Whatever it takes we will fight tooth and nail over this, you can be assured. We have already fought for this once and come out on top, at the expense of the council tax payers for your barrister representing you. If the council concentrated on filling up empty houses and converting shops into flats, people would be on the councils side, but they seen bent on wasting money and upsetting the council tax payers who keep them in a job.- TDB.</p>			

## How to suggest sites which do not appear on the maps

If you want to suggest a site that does not appear on the maps **please provide a map** with the site outlined in red. Please state the uses which you propose allocating the site for and explain your reasoning. Also, please include the name of the landowner if known.

You pay people a lot of money, who's job it is to go through these things with a fine tooth comb, these people should know ,how many shops and properties are empty, and would know that most of these empty properties could do most of the people what require houses.

## Comments about community facilities in your area

New development can provide benefits to communities through enabling the delivery of improved or new community facilities (for example, play areas, allotments, green space, car parks, traffic management, pedestrian and cycle links, health and education facilities and community centres etc). It will not improve nothing only make thing worse, traffic wise and , everything . You have plenty of spaces with getting rid of parking on new road etc.

Do you think that your area needs new or improved community facilities?

**If so, what sort of facilities and where?**

Please explain the types of improved and/or new community facilities you feel your community may need in the next 15 years (continue on a separate sheet/expand box if necessary).

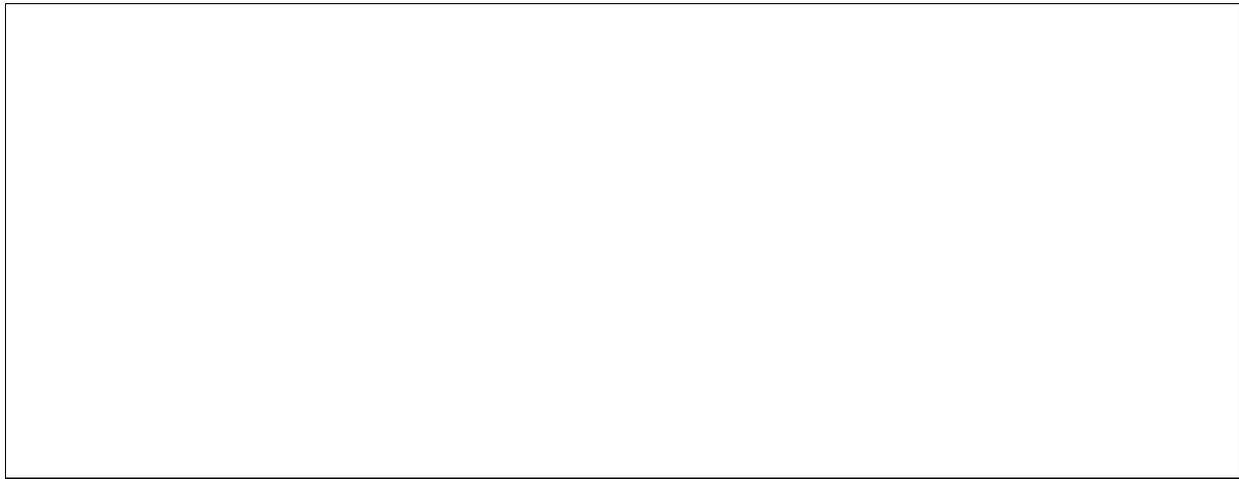

A Green fields not a Concrete Jungle with houses 6" apart.
