Response by K.B Craker.

I write in response to the letter/email of 16<sup>th</sup> June regarding consultation on sites in Storth.

I am against the proposal at numbered point 2 in that letter/email.

There should be no development on green field land, there is no need for it and to allow it would set a very dangerous example – there would inevitably be pressure to extend it and develop on green field land elsewhere.

It would increase traffic through the village centre on narrow roads which are often already congested at times, where there are no footways and where the speed limit is rarely observed by many.

I was, and remain in favour of the proposals put forward last November to develop the old Travis Perkins site.

These were sensible, proportionate and necessary to generally tidy up the area.
