Query/comment	This report clearly represents a lot of good work - thank you! But... Protection of green corridors between Kendal & Oxenholme, etc. seems to be lost if a core development falls inside a corridor. This surely should not be allowed or the green corridor protection is a sham. I am particularly concerned about the area between the Westmorland General Hospital and the main railway line, which is an area you have already been refused permission to develop after a previous attempt.
