Land Allocations - Further Consultation

Please use this form to comment on:

1. Alternative sites put forward by respondents to the earlier Land Allocations consultation (January - April 2011);
2. Time span of the Land Allocations document
3. The approach to development in small villages, hamlets and the countryside.

Please complete one of these sheets for every response you make.

(Please also note that comments made in earlier consultation need not be repeated.)

1. Alternative Sites

Please let us have your views on alternative sites suggested by respondents to the previous consultation. (Please note, these are not SLDC suggestions.)

Which site do you wish to comment on?		
Settlement (e.g. Natland)	Site reference number (e.g. RN298#)	
North Lonsdale Road Ulverston	ON43	
Please indicate below whether you support, support in part or oppose the suggestion that this site be included in the Land Allocations document (please tick as appropriate)

Please explain your reasons/add your comments below (continue on a separate sheet/expand box if necessary)		
<p>Very concerned over ANY more building being developed in the whole area of South Ulverston because of the uncertain future of flooding and the effect on existing homes. The new builds are so overwhelming being built so high and how will the existing water and sewage infrastructure stand up to so much extra usage? The roads are not adequate for extra traffic and parking is already becoming a nightmare. Common sense and Care for the existing Community should take precedence over all future planning.</p>

2. Time Span of Land Allocations Document:

Should the Land Allocations document plan period remain 2003 – 2025 or cover a shorter period, for example, 2003-2020?

Please indicate whether you support, support in part or oppose a reduction in the time span of the Land Allocations document (please tick as appropriate)

Time is not the problem so much as should any of this go ahead in South Ulverston with there being so many issues over possible flooding and the effect on the existing community

3. Small Villages, Hamlets & Open Countryside

Do you think the future housing and employment land needs of small villages, hamlets and open countryside are best met by: -

- A. Allocating sites for houses and employment in the Land Allocations document; or
- B. Communities and/or developers bringing forward sites for housing and employment for consideration under relevant Core Strategy policies, through neighbourhood plans and/or other local initiatives.

Please indicate which of the above options you would support. (Please tick as appropriate)

A

B

Please explain your reasons/add your comments below (continue on a separate sheet/expand box if necessary)

The local community would respond better to any plans if they were consulted beforehand and could give their input. There has been a lot of distress over the impact and damage of flooding and what the local people have proved is that they can pull out all the stops when it comes to helping one another and putting their backs into rebuilding, solving and acting responsibly. They have a lot to offer and deserve to be listened to and consulted. They know first hand the stresses of living in a flood risk area and the problems with traffic/roads/parking and drains etc.

Janet Jay

Thank you for your views and suggestions.
