Subject: Grounds of objection to Development plans in Milnthorpe

Follow Up Flag: Follow up  
Flag Status: Completed

I wish to raise grounds for objection to some new proposed sites for development in Milnthorpe.

My comments are all with reference to 2 development boundaries:

MILNTHORPE R642M and RN42.

1 These are NOT new proposed sites. They have been looked at before and rejected in previous submissions.

2 Availability of farm and accompanying land is not planning grounds to grant residential development consent.

3 In order to support existing urbanisation, rural land and especially agricultural land should be maintained. this area should support an infill only policy.

4 The agglomeration and merging together of Milnthorpe and Ackenthwaite should be prevented, so as to preserve individual settlement identity.

5 A reference to "other" land use is useless. How can we accept something when we don't know what it is e.g. industrial, retail - Tesco's etc.

Regards

Sandra Almond
