Further to my telephone call earlier today. I confirm that Mr I M Davies (me) and Mrs D Davies (my wife) are the owners of the land and property edged red on the attached plan (known as Fox Rock).

The part of Fox Rock hatched blue is part of the site included in land allocation with reference RN332# and has already had planning permission.

We support the proposal for RN332# to form part of the land allocation for residential development as it was in previous Local Plan allocation.

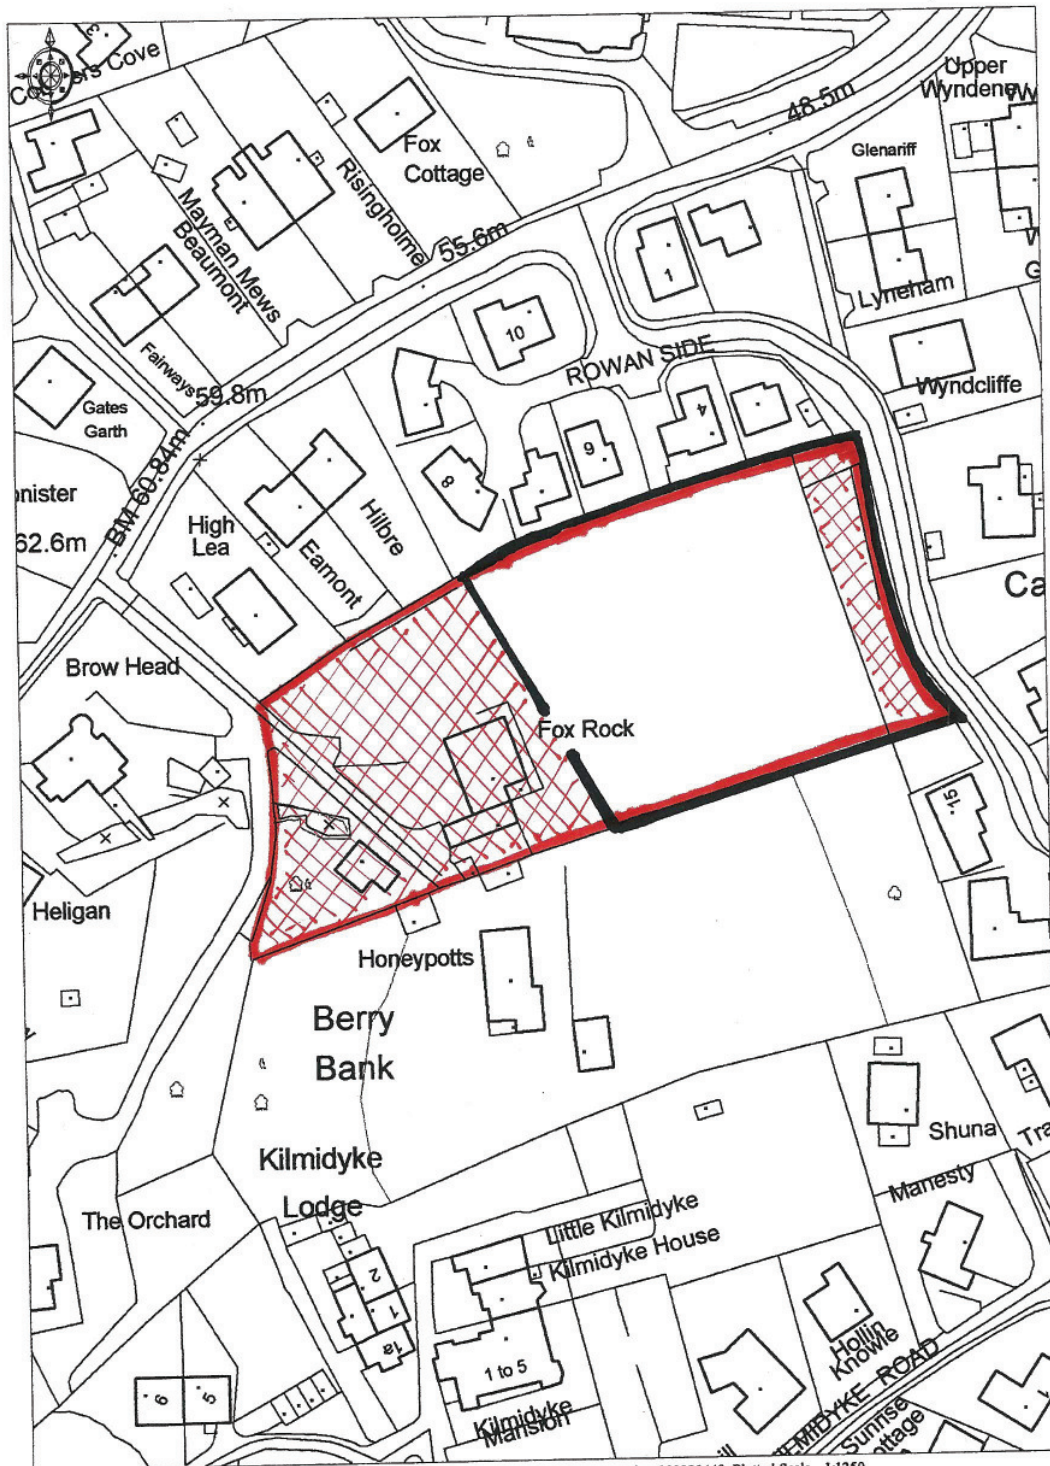

We propose that the part of Fox Rock hatched red, which includes a site in land allocation with reference R354, should be included in RN332#

Please let me know if need any further information .

Regards

Michael Davies
