Dear Council Members

I wish to lodge my objection to the proposed industrial development Cark & Holker EN49 for the following reasons.

- 1 Green belt intrusion
- 2 Flood plain that does what it says - floods
- 3 Possible pollution into water course
- 4 Abolition of fertile productive land in favour of industry when there are units set up specifically for that purpose on the Mile Road
- 5 Exit to the left from the proposed site is difficult & visibility is limited.

I hope you will consider these objections when discussing the matter.

Many thanks

Mr & Mrs J Rowlinson
