I am writing to inform you that we oppose the proposed future development at Park Road Swarthmoor.

This land is currently a green area between two settlements and is productive agricultural land.

This would be ribbon development and would finally connect Ulverston to Swarthmoor as a conurbation, with a loss of village identity for Swarthmoor. Both situations are contrary to National Planning Directives.

The Town Lands Trust was set up to protect this area and prevent such development.

To say nothing of the reduction of visual amenity from our house should this go ahead.

The increase in traffic would be too much for the narrow, already busy, Park Road

Terry and Janet Ridal
