Subject: Stockbeck Flood Defence Scheme

Att Development Plans Officer

I have received a communication from The Stock Beck Action group which shows concern for a proposed development which could have considerable adverse effect on the Stock Beck Flood Defence scheme.

As we live adjacent to this defence scheme and were badly flooded in 1999 I have read this communication with considerable alarm.

I would like to receive from you written confirmation that any developments will not put my property at risk of flooding in the future. until I receive such assurances I would confirm my objection to this development.
