Dear Sir,

LAND ALLOCATION: R121M

We are writing to reiterate our previous objections - and to lodge our current objections - to the application for development of the land allocated under reference R121M. We understand that a modified application has been submitted recently which merely compounds some of the problems highlighted during the initial consultation phases. The specific and tangible objections raised then were wide-ranging and significant. To proceed with any form of development in this area would, in our opinion, be foolhardy.

We trust that you will continue to take our extant objections into full consideration.

Yours faithfully,

DAVID SYMONDS

JUDITH SYMONDS
