

Re: Land Allocations

Document - Further

consultation Summer  
2011.

Dear Sir

On the last consultation

map Summer 2011 I see that  
RN 319 # has been suggested  
for possible development.

This land lies at the top end  
(a cul-de-sac) of Thornleigh  
Drive which is a private road.  
with no pavements, narrow access  
for vehicles, no street lighting  
and inadequate drainage.

When the present residents were  
conferring to get Thornleigh Drive

re-surfaced in 2004 the  
S.L.D.C. would not adopt it  
as they considered it was not  
up to standard and would  
have to be totally re-made.

At the present time Thornleigh  
Drive appears to my husband &  
myself to be completely inadequate  
and therefore unsuitable for  
any further development.

sincerely yours

for F.R. & B.M. Rush:
