POST ROOM

Dear Sir,

Land Allocations East of Oak Tree Road

I have already voiced my objections to the development of this area but am particularly concerned by the amended application by Russell Armer extending and increasing proposed building northwards:

- a. Sedbergh Road is already narrow & dangerous.
- b. The great landscape value of this land E of Kendal would be lost.
- c. The Stock Beck Drainage Scheme which takes storm water from this area is already working to capacity without extra run-off.

Yours faithfully,
