

FCLE144

Mrs J Haysom

26/8/11

Dear Sir or Madam,

I wish to object to the area R124 being included in the new Development Framework.

This area has always been a marshy area prone to occasional flooding. Since the work associated with the Stockbeck scheme, this has much improved. However, after heavy rain water still runs down the field above into R124.

At the moment the Stockbeck scheme is coping well, but new building would put extra strain on it. It is possible that it could be too much after heavy rain.

I think it would be very unwise to build on this area.

Yours faithfully
