Dear Sir,

Re: Land Allocations - Proposals R121 M.

With regard to the above, I have already objected to the original proposal for R121 M - my letter dated 11th April 2011 refers, and I can see no reason why these amendments could possibly improve the situation.

Thank you for your consideration in these matters but there are no further comments I wish to make and would prefer not to be consulted in future on the Land Allocations.

Yours faithfully,
