

Dear Mr. Hudson,

Re the proposed 70 houses by Story Homes of Carlisle on site no R.N 291 at LEVENS (which also includes site no R682 LVM which was rejected by 73% in the last survey).

I do live on Brigsteer Road but this isn't a "N.I.M.B.Y." letter; just a statement of facts.

Lots of people both local and visitors come along this road to enjoy the peace and the scenery and many who have spoken to me recently have expressed absolute horror that this could ever be blocked in by houses. This level walk out with its lovely views is the equivalent of a favourite park in any town and to build on the above site would completely destroy that amenity and pleasure for the entire village.

On behalf of all the people whom this will affect may I appeal to the planning department to take these opinions and feelings into consideration and reject this site.

Also visual impact would be very noticeable for many miles around as well as spoiling the look of the village forever. On a practical note the road is very narrow in places and all the extra traffic would cause massive problems.

It is fully understood that the village has to have some houses but this particular site has the most detrimental effect on the largest number of people.

Thank you for taking the time to read this.

Yours Sincerely
