WE would like to OPPOSE RN230# site as we feel this will have a great impact on the wildlife near this ~~the~~ site, Quarry lane is habitat to wild deer that roam freely in ^{the} ~~opposed~~ site also the wood is habitat to butterfly and would like you to consider these insects and animals when building houses.

we do however understand the need to build houses and would like to suggest not building on just a couple of sites but to build small amounts on a lot of the sites.

It would also help the area's proposed if the

houses were built in keeping with the area
and not look so cramped ~~as~~ in as Greendale
houses look.

we would like to support site RN290#

R339#, RN84# & M32# RN37#

- RN82# RN224#

many thanks
