

SOUTH LAKELAN  
DISTRICT COUNCIL  
RECEIVED

- 7 SEP 2011

REVS & BENS

1st Sept 2011

The Planning Officer

I wish to state my objection  
to the alternative sites R17,  
R100, RN154, RN302 & ON50

My reasons are the same  
as my original objections in  
my letter sent earlier this year  
on sites R121M, R141 & R56, that  
is that

- a) the risk of flooding due to  
water run off would be  
increased even further
- b) the landscape risk to

2

biodiversity would be even greater

- c) the obvious effect of more housing causing more traffic, & more pollution
- d) would the proposed house really be 'affordable'.
- e) possibly more problems with sewage, especially with an increased flood risk.

It would appear that these alternative sites & amendments only increase the possible harmful effects of building on these sites

Yours sincerely
