Ref MN22#

01 September 2011

Dear Dan Hudson,

I should like to object to the planning proposal MN22#.

- It is valuable grazing/agricultural land.
- It is high quality landscape.
- It is on the valuable green fringe of the town, and as I have objected to such sites being developed elsewhere, so I should with this one.
- It is un-neighbourly, albeit to only a few residents perhaps.
- It is, at least in part, highly visible from the railway and out of keeping.
- It would cause the destruction of valuable woodland, with the loss of natural wildlife habitats etc.
- It would be irresponsible on highways grounds, as there is just nowhere that would allow safe access onto and from the main road.

Yours sincerely,

Austen Robinson (Town Councillor – Castle Ward.)
