Land Allocations - Further Consultation

Please use this form to comment on:

1. Alternative sites put forward by respondents to the earlier Land Allocations consultation (January - April 2011);
2. Time span of the Land Allocations document
3. The approach to development in small villages, hamlets and the countryside.

Please complete one of these sheets for every response you make.

(Please also note that comments made in earlier consultation need not be repeated.)

1. Alternative Sites

Please let us have your views on alternative sites suggested by respondents to the previous consultation. (Please note, these are not SLDC suggestions.)

<ul style="list-style-type: none">• I am deeply concerned with the proposal to site a supermarket and/or retail park in this location. I feel this would be totally unjustified urban expansion into Ulverston's lovely rural setting, and would be seriously detrimental to Ulverston as a thriving small market town.• Ulverston is currently one of the very few remaining towns and which have a vibrant mix of small independent thriving businesses at its centre. Virtually all other towns in England are full of chain stores, all exactly the same, boring to visit and shop in, and all syphonning profits away to a central business.• Currently Ulverston provides a good range of local services; far more sustainable, and bringing money into an area which doesn't have a lot of wealth, as well as providing a uniquely attractive local service for residents and visitors alike.

2. Time Span of Land Allocations Document:

Should the Land Allocations document plan period remain 2003 – 2025 or cover a shorter period, for example, 2003-2020?

Please indicate whether you support, support in part or oppose a reduction in the time span of the Land Allocations document (please tick as appropriate)

<p>In terms of planning and development, the 2003 - 2025 is not a long time period, and gives chance to properly consider all the issues affecting proposed development, ensure existing natural and historical assets are taken into consideration and protected where they are important, that other environmental and landscape issues and are fully considered, as well as the views of local people.</p> <p>Once the decisions have been made, there is then clarity for all concerned, and a period of stability to carry out the works.</p>		

3. Small Villages, Hamlets & Open Countryside

Do you think the future housing and employment land needs of small villages, hamlets and open countryside are best met by: -

- A. Allocating sites for houses and employment in the Land Allocations document; or
- B. Communities and/or developers bringing forward sites for housing and employment for consideration under relevant Core Strategy policies, through neighbourhood plans and/or other local initiatives.

Please indicate which of the above options you would support. (Please tick as appropriate)

A ☒

B ☐

As with question 2, I think this allows Planners time to consider all relevant Factors before reaching balanced decisions - particularly in terms of landscape-scale effects and cumulative effects of development. Although there is a case for considering additional ~~site~~ sites occasionally under exceptional circumstances - having the areas clearly set out in the first instance helps ensure safeguards (for example of valuable ecological or archaeological sites) are in place. This is particularly important at the moment, when local authorities are seriously underfunded and understaffed.

Thank you for your views and suggestions.
