

9th September 2011.

To The Planning Officer
South Lakeland Land allocations.
Site reference RN 293* Holme (R.677).

I live in the middle one of three dwellings immediately opposite the land referred to above, and whilst I am aware that further housing development maybe? needed (taking into account the number of properties for sale or to let in the village) I this ought to be a long term decision.

Road side parking would be a serious matter were this development to proceed. Burton Road has enough traffic problems as things are now! ie Tarsleton View and Holmfield overflow parking.

There would also be a serious diminution of light for properties on the East side of Burton Road and maybe a privacy infringement.

I seriously think this Land Allocation Plan should be for the longer period to 2025
