Re Ref No R677 on your Plan

This is the Only peice of land in the village with road frontage.

I am disgusted with the housing along North Road. taking up ever inch of green grass. I think there ought to be some "relief" space. The type of houses being built to day does nothing for a village enviorment. There will be more traffic disturbance and possible road side parking causing chaos at times, is this for the long term or for more immediate planning? I oppose any more develoment of this kind.

yours Sincerely
