

FELE37

10th Aug 2011

Dear Sir / madam,

With reference to the application by Story Homes for using alternative site RN291 I would like to say that those involved in the application have no interest - the village apart from financial gain.

I also feel that any development on this site would alter the character of the village completely.

The whole approach from the North would be completely different & the look of the village would be changed.

As you will recall there was massive opposition the last time this site was suggested for building. In the past building on open land like this would have been turned down.

I agree some affordable houses are required but some notice should be taken of what the residents would like. I think the villagers themselves should have more say & what is done - after all they are the people who live here. Yours faithfully,
