## **Land Allocations - Further Consultation**

Please use this form to comment on:

1. Alternative sites put forward by respondents to the earlier Land Allocations consultation (January - April 2011);
2. Time span of the Land Allocations document
3. The approach to development in small villages, hamlets and the countryside.

Please complete one of these sheets for every response you make.

(Please also note that comments made in earlier consultation need not be repeated.)

### **1. Alternative Sites**

Please let us have your views on alternative sites suggested by respondents to the previous consultation. (Please note, these are not SLDC suggestions.)

<p>I oppose this site due to the fact that the access is not correct. It is a single track road with no footpaths, poor visibility and a number of bad bends.</p> <p>Housing would be well outside the village boundaries being highly visible on three sides</p>

**2. Time Span of Land Allocations Document:**

Should the Land Allocations document plan period remain 2003 – 2025 or cover a shorter period, for example, 2003-2020?

**Please indicate whether you support, support in part or oppose a reduction in the time span of the Land Allocations document (please tick as appropriate)**

**I would support the date being brought back to 2020. I think in these ever changing times 2025 is too longer timescale.**

**I would hope this has the effect of reducing the potential number of new dwellings being required in the village because of the shorter time frame.**

### **3. Small Villages, Hamlets & Open Countryside**

Do you think the future housing and employment land needs of small villages, hamlets and open countryside are best met by: -

- A. Allocating sites for houses and employment in the Land Allocations document; or
- B. Communities and/or developers bringing forward sites for housing and employment for consideration under relevant Core Strategy policies, through neighbourhood plans and/or other local initiatives.

**Please indicate which of the above options you would support. (Please tick as appropriate)**

**A** ☒ support

**B** ☐

**Please explain your reasons/add your comments below (continue on a separate sheet/expand box if necessary)**

**I think it is very important that people who live in the village, and people who want to come and live here, have the certainty of knowing where likely developments may take place. This is best achieved via the land allocation document which will discuss proposal with the villagers before confirming sites.**

**Thank you for your views and suggestions.**
