

## **POLICY DM18 – Tourist accommodation etc**

### **RESPONSE ON BEHALF OF MR T WILSON,**

Add “lodges” after “new static” in first line;

- 2. The applicant should not have to demonstrate necessity as part of a farm diversification scheme so the words “where the proposal is necessary and evidence is provided” be deleted;
- (f) should be “protect or enhance”; and
- (h) should be deleted.

At 5.3.2 the suggestion of a concentration of caravan site development on Cartmel Peninsula is discussed. Such developments in this location takes the pressure off the National Park but provides tourist accommodation for people who wish to visit the National Park. The Reasoned Justification should recognise that areas outside of the National Park have a role in supporting the demands that National Park creates, rather than imply such developments have a negative impact.
