Your comments

Would I be correct in thinking that these two proposed sites for development are primarily for affordable homes / low cost housing. If so, then families with children could be involved, some of these children being of school age. It would cost SLDC a substantial sum to provide the required services and amenities that currently do not exist. I quote :-

SLACKHEAD TODAY.

No street lighting

No house mains drainage (all septic)

No surface water mains drainage

No public transport

Road from Beetham in 50% of its length, is single track with passing places

(Continue on a separate sheet if required)

Are there any topics or issues that you think we have missed or that you wish to raise?

OH YES.

The road cannot be widened in its narrowest part due to the proximity of established properties. Passing places are provided by courtesy of residents who allow motorists to use their drive entrances. They are perfectly entitled to place barriers across.

For the whole length of the road Beetham to Slackhead, there is not a pedestrian footpath. Without personal transport it would be a very dangerous walk for children to the Primary school in Beetham. I estimate there to be 300-500 vehicles daily on weekdays including many commercials. Currently, the road in parts is in a very dangerous state for pedal cyclists
