12th April 2011

Dear Sir

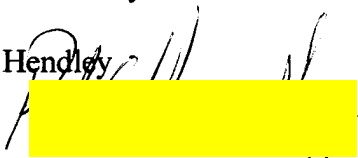

I would like to express my concerns about the proposed development of site Reference R121M. Over the years there have attempts to develop parts of this site and these applications have been rebuffed, is it a case of if you apply enough times people will get tired of receiving the applications and grant them?

As far as I know the reasons for the rebuff have not changed. ie- The wildlife is still there, concerns over the affect on the catchment area and drainage, yet another gobbling up of another Greenfield site, the affects on traffic flow on an already busy road and lastly no mention has been made as far as I know of the effects on the proposed residents of this development of the proximity of the main Railway line the runs above this site, I know that from where I live I would not like to be any closer to the Railway.

If it is the policy to find housing, would it not be better to investigate and or indeed invest I existing vacant housing before using scenically pleasing land.

Yours sincerely

RJE Hendley
