Mrs. J. Hodgson

12th April 2011

To whom this may concern,

I would like to express our concerns in line with those expressed by the Hayclose opposition group regarding the proposed development around Kendal Parks R150M.

Kendal parks at present is a relatively quiet and a pleasant area to live in. The additional traffic that would be added to the estate as a result of this development would ruin this area. At present there are significant dangers presented by parking by residents along the main road connecting Oxenholme road into the estate around the Howe gardens and Howe bank close creating blind exits to junctions and obstructing the area around the children's playground. This problem is further compounded by traffic from Oxenholme station parking in this area.

My daughter has grown up in this area able to play and cross the roads safely, this proposal seriously jeopardises this for future generations.

Yours sincerely,

KENDAL PARKS &
OXENHOLME ROAD
