

From MRS. G.W. KENNEDY

To Mr. Dan Hudson,

I notice that my ~~resources~~ communication from the Lane D.P.D. was dated 1st. APRIL 2009! The contact being a Mr Stephen OTTEWELL. Perhaps the date was significant! I despair of the waste of public money spent on meetings which result in very little before any worthwhile decision is made.

(I have approved of the allotment plan and imagine that most rate payers will join me.)

I listed my objections to any further development in Orange Hill Road, and nothing has changed my mind.

At the age of 84, it seems obvious that I can't "think" ahead therefore I cannot foretell requirements. During the time that the country "bank" owes so much money, I think you would be well advised to stop spending more "money" and time on fruitless exercises.

Perhaps by the year 2050 you will agree with me! As will all the other Development Managers!

Yours, in hope (but not for more requests for my opinion)
