Dear Sir/Madam.

OBJECTION: SITE REF R121M.

Please be advised that we would like to raise objection to building on the above plot.

Our objections include: traffic generation (we live on Seabrook Road, which is very narrow and does not have footpaths. We are keen to continue walking and cycling into town & additional traffic on this road would be simply dangerous.

We are concerned also due to the loss of open space and green gap such a development would bring. The proposed development would alter the view of town both from Seabrook Road & Castle Green Lane. Great crested newts also live in the area, a species that need protecting.

We trust you will give our objections due consideration and look forward to

Your confirmation that the proposed
development will be withdrawn.

Yours faithfully
