Subject: MOD Response to Consultation on Land Allocations DPD

Good morning Dan

Thank you for consulting the Defence Infrastructure Organisation (DIO), on behalf of the Ministry of Defence (MOD) on SLDC's Land Allocations DPD.

I have discussed your letters with colleagues and have considered whether there are any impacts as a result of the document on Defence interests. I can confirm that there are no significant Defence sites within your District and as a result MOD has no comments to make on the document.

Given the lack of Defence sites within your area, it is unlikely that we will have any significant comments to make on future consultations. However we will need to continue to review consultation documents, particularly from a safeguarding point of view (for example in relation to policies relating to renewable energy), therefore I would be grateful if you could please keep me on your consultation database.

Regards,  
Jodie
