Comments about suggested site allocations (and other map designations)

Please use this form to comment on emerging options and other sites as they appear on the settlement maps. **Please complete one of these sheets for every response you make.**

Which site or allocation do you wish to comment on?			
Settlement (e.g. Natland)	Map Number (e.g. 11)	Site reference number (e.g. R62)	Other designation – If you want to comment on something that doesn't have a site reference (e.g. development boundary, town centre boundary, green gap) please describe it here
Brigsteer	17	RN213	
Do you support, oppose or support in part the suggested allocation or designation? (delete as appropriate)			
I do not support the suggested site allocation/designation for the following use(s): Housing			
Please explain your reasons (continue on a separate sheet/expand box if necessary)			
<p>I do not consider Brigsteer to be an appropriate location for housing development as, with no shop or other facilities and no public transport, increased housing here is not sustainable.</p> <p>Having said that, this location is within the natural village boundary and would be screened by the trees to the west. It is preferable to development of site RN214 which would be far more visually prominent and would create urban sprawl to the detriment of what is currently a compact village.</p> <p>If there is any development on this site a reptile survey should be carried out as the regenerating ground following clear-felling of the conifer plantations may have created habitat suitable for common reptiles such as slow-worms and common lizards which are legally protected from killing and injury under the Wildlife & Countryside Act 1981 (as amended).</p> <p>There should be no street lighting in Brigsteer and any lighting should be kept to a minimum.</p>			

How to suggest sites which do not appear on the maps

If you want to suggest a site that does not appear on the maps **please provide a map** with the site outlined in red. Please state the uses which you propose allocating the site for and explain your reasoning. Also, please include the name of the landowner if known.

Comments about community facilities in your area

New development can provide benefits to communities through enabling the delivery of improved or new community facilities (for example, play areas, allotments, green space, car parks, traffic management, pedestrian and cycle links, health and education facilities and community centres etc).

Do you think that your area needs new or improved community facilities?

If so, what sort of facilities and where?

Please explain the types of improved and/or new community facilities you feel your community may need in the next 15 years (continue on a separate sheet/expand box if necessary).

What this area needs is public transport to Kendal, Crosthwaite and beyond to Bowness and to Levens and Levens Bridge to provide access to shops and schools and to connect with other bus services. Sadly, the one infrequent bus service has just been axed.

There is no shop or post office in Brigsteer and no public transport to such facilities. This is not a sustainable location for further housing in the absence of public transport.

Comments about the documents and approach

Please respond here if you have any comments to make about the documents and approach. Please indicate the name of the document, page number, paragraph number or policy reference (where applicable) by ticking the appropriate box.

Please complete one of these sheets for each specific comment you want to make on each document.
