Subject: HOUSING DEVELOPMENT - NATLAND R62

R62

How disappointed I was to see Holme Field being designated for proposed building!

To think this field was purchased in 1885 for the boys of St Marks Home and has since been used for a playing field, for the boys home, the children of the village and the local football team - how sad now to see that the children's society are now going to sell this same field for possible redevelopment.

Yet more housing for whom in Natland. There are 16 houses for sale in Natland as of today and shortly 12 to be completed on the new site (adjacent to St.Marks Fold). Havent we enough already. What about the local infrastructure for the village / shops / buses / parking etc. (which is abismal as it is today, without any more housing). Yet more traffic travelling between Kendal and Sedgwick - a road which is a cycle route (used regularly) and a walking route.

I do strongly object to not only this field being used for development but for any future building in Natland.
