Dear Sir,

Arnside and Silverdale Area of Outstanding
 Natural Beauty Development Plan.

I wish to register my objection to the building
 of more houses or bungalows on the
 Whinney Fold Area of Silverdale, or any
 such major development in above Area.

I believe that the whole of the Arnside
 and Silverdale Area of Outstanding Natural
 Beauty should be declared a Conservation
 Area. It should be protected from further
 major development.

The selling of Land is not about providing
 houses, but Capital Gain for the Vendor.

Any piece of Land in the above Area is full
 of birds rare flora and fauna and deer.
 The whole area is an oasis of peace and
 tranquility. A precious jewel in the

noisy polluted world we live in. I would
urge you to preserve it. (162)

There is no work or major super markets in
the Area. Anyone living here has to travel
often long distances to work or shop.
At the recent Paris Climate Change
Conference it has become clear that,
if we do not cut carbon emissions
the planet will reach a tipping point
and be lost. It is therefore irresponsible
to build substantial housing developments
in a place where people have to
constantly use their cars to travel to
work or buy food.

It is the duty of all of us to contribute.
I therefore urge you to think very
carefully before allowing the proposed
developments taking place.

Yours faithfully
