Subject: Cartmel Land Allocations

One of the strategy items is to recognise what Cartmel is today and to maintain this.

Cartmel is already bulging at the seams. The infrastructure could not cope with more housing.

Already, the situation has got worse since the revamp of the main car park and increased charges.

Vehicles park anywhere. Yellow lines, white lines and on pavements.

Also the recent downpours prove the flooding problems

How anyone could propose more access locations on Haggs Lane, particularly on the bend is inconceivable.
