Dear Sir / Madam

Re: Allocations of Land Document

Further to being in complete agreement with the contents of the letter from the Chairman of Helme Lodge Homes and Gardens Mr Stephan Downham, I would also like to make the following points:

- 1) The bollards to the west end of Natland Millbeck Lane have been installed to prevent through traffic and serve to illustrate the unsuitability of the site for increased traffic volumes.
- 2) I would like also to add, that the inherent constraints of the access to the proposed sites would mean that there are serious health and safety issues during the construction phase for local residents, many of whom are elderly, relating to ingress and egress of plant, materials and personnel via this single track single exit lane. This further serves to illustrate the unsuitability of the location for the proposed developments, both during the construction phase and during lifetime of the proposed developments.
- 3) In short I feel that this location is totally unsuitable for the proposal put forward in this planning application and would like to register my objections in the strongest possible terms.

Yours Faithfully

Mr and Mrs A Porter
