# Comments about suggested site allocations (and other map designations)

Please use this form to comment on emerging options and other sites as they appear on the settlement maps. Please complete one of these sheets for every response you make.

Which site or allocation do you wish to comment on?			
Settlement (e.g. Natland)	Map Number (e.g. 11)	Site reference number (e.g. R62)	Other designation – If you want to comment on something that doesn't have a site reference (e.g. development boundary, town centre boundary, green gap) please describe it here
Natland		see below	
Do you support, oppose or support in part the suggested allocation or designation? (delete as appropriate)			
I support /do not support /support in part <b>the suggested</b> site allocation/designation for the following use(s) Housing/employment/retail/community uses/open space/ other (specify).....			
Please explain your reasons (continue on a separate sheet/expand box if necessary)			
<p>• RN 150 We support the non-allocation of this field. Its development would be a step towards coalescence with Kendal &amp; would harm the character of the village which is set in a farmland setting.</p> <p>• R 679 M } We have no problem with these  R 680 N } particular allocations but any  R 62 } further residential development in Natland will aggravate its serious traffic problems on the single <del>road</del><sup>track</sup> Oxenholme lane. The lane is used by buses &amp; parents bringing children to &amp; from the primary school &amp; by commuters &amp; commercial traffic (including lorries) cutting through to the Burton Road access to Kendal &amp; by farm traffic. The traffic problems on this road should be addressed before any further development takes place.</p>			

## How to suggest sites which do not appear on the maps

If you want to suggest a site that does not appear on the maps please provide a map with the site outlined in red. Please state the uses which you propose allocating the site for and explain your reasoning. Also, please include the name of the landowner if known.

## Comments about community facilities in your area

New development can provide benefits to communities through enabling the delivery of improved or new community facilities (for example, play areas, allotments, green space, car parks, traffic management, pedestrian and cycle links, health and education facilities and community centres etc).

Do you think that your area needs new or improved community facilities?

**If so, what sort of facilities and where?**

Please explain the types of improved and/or new community facilities you feel your community may need in the next 15 years (continue on a separate sheet/expand box if necessary).

See the comments above on the problems on Oxenholme lane. Vehicles can only pass if one of them pulls into a private driveway - there are no passing places for much of its length.

# Comments about the documents and approach

Please respond here if you have any comments to make about the documents and approach. Please indicate the name of the document, page number, paragraph number or policy reference (where applicable) by ticking the appropriate box.
