Comments about suggested site allocations (and other map designations)

Please use this form to comment on emerging options and other sites as they appear on the settlement maps. **Please complete one of these sheets for every response you make.**

Which site or allocation do you wish to comment on?			
Settlement (e.g. Natland)	Map Number (e.g. 11)	Site reference number (e.g. R62)	Other designation – If you want to comment on something that doesn't have a site reference (e.g. development boundary, town centre boundary, green gap) please describe it here
Milnthorpe West		M292	Land adjacent Grisleymires Lane/Dallam Chase
Do you support, oppose or support in part the suggested allocation or designation? (delete as appropriate)			
I do not support the suggested site allocation/designation for the following use(s) Housing/employment/retail/community uses/open space/other (specify).....			
Please explain your reasons (continue on a separate sheet/expand box if necessary)			

<p>1.Drainage - the land is boggy and poorly drained. Dallam Chase drains are regularly cleaned of debris.</p> <p>2.Access - the number of near-misses on Grisleymires caused by excess traffic has prompted the recent installation of double yellow lines. Any further development would make this situation worse.</p> <p>3. Existing development schemes. We feel that the current Booths application and fact that the area is also earmarked for industrial units means this part of Milnthorpe is already heavily developed and it is unreasonable to allow more.</p> <p>4.We already tolerate noise, smell, smoke and traffic to and from Houghtons Coachworks.</p>

How to suggest sites which do not appear on the maps

If you want to suggest a site that does not appear on the maps **please provide a map** with the site outlined in red. Please state the uses which you propose allocating the site for and explain your reasoning. Also, please include the name of the landowner if known.

Comments about community facilities in your area

New development can provide benefits to communities through enabling the delivery of improved or new community facilities (for example, play areas, allotments, green space, car parks, traffic management, pedestrian and cycle links, health and education facilities and community centres etc).

**Do you think that your area needs new or improved community facilities?
If so, what sort of facilities and where?**

Please explain the types of improved and/or new community facilities you feel your community may need in the next 15 years (continue on a separate sheet/expand box if necessary).

I feel that the area is relatively well served by the current community facilities on offer either in town or at Dallam School.

Improvements to the local open air pool would be beneficial.
