Dear Ms Woodend,

**LOCAL DEVELOPMENT CONSULTATION FRAMEWORK
MAP 37 BROUGHTON in FURNESS PLOT R163M**

Further to my letter dated 30 May 2011 I have pleasure in enclosing a series of photographs that I have taken of current grazing land adjacent to the A595 between Foxfield Road and Foxfields.

I consider that these sites are equally suitable for housing development but will have significantly less impact upon the environment than the proposed site in the centre of the village. The additional walking time into the village would be approximately 10 minutes which is not material in the consideration of where to locate the potential housing development.

Should you consider that none of the sites adjacent to the A595 are suitable for housing then the proposed employment site at the A595 end of Foxfield Road could be relocated to one of the sites adjacent to the A595 and the potential housing development could take place at this end of Foxfield Road.

I trust that upon reflection you will consider that there are suitable alternative sites around Broughton in Furness which will have significantly less environmental impact and still provide the additional housing stock if this is actually required.

I look forward to hearing from you.

Yours faithfully

Mr P J Vince
