Your comments

Comments are primarily about sites in Silverdale, with which I am more familiar than I am with other parts of the AONB.

Sites 43, 44, 46, 50, 58, and 96 are all on sites exceeding 1 hectare, and should be excluded as constituting major development. All would have a detrimental impact on the visual amenity of the AONB. All except site 43 are also beyond the current boundary of the village.

The proposed "mixed use" at 44 needs to be considered with the proposal for site 52, which is part of the same landholding, and would inevitably be part of an integrated development across the two sites. Current usage of the adjacent land would indicate potential for development of a caravan site, or other recreational facility, on land which lies adjacent to SSSIs, and carries both visual amenity and biodiversity importance. The proposal to develop here seems to contravene a number of planning policies and principles.
